Project Update Report

Project Name: **Vrishal Engineering**

Prepared By: Techomax Soluion

Date: 22-08-2025

Total Tasks: 174 (Old Module)

1. Overview

This report provides an update on the progress of the Vrishal Engineering project, covering support requests, bug fixes, and newly created tasks. Significant progress has been made across all modules, with a strong completion rate of over 78%. Key milestones have been achieved, and the team is on track to finish the remaining old module work before transitioning to the new Piping module.

Note: points are added in between

2. Task Summary

Total Support: 62

Total Bugs: 41

Total New Tasks : 36

|	Total	Completed	Remaining
Main store	30	26	4
Payroll	16	11	5
Structural	134	99	3
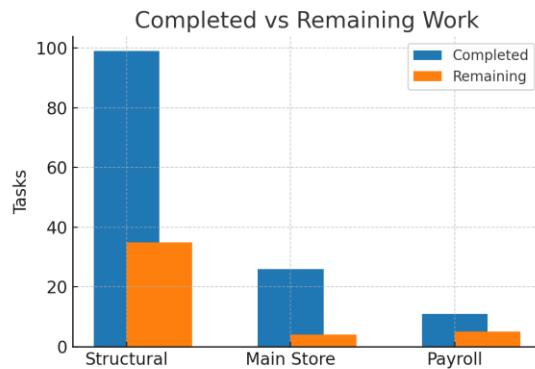

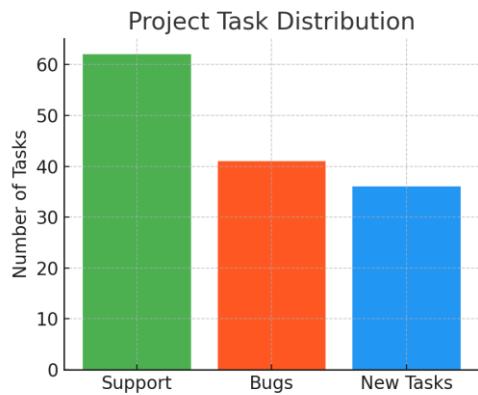

3. Progress Analysis

- **Completed:** 136 / 174 → **78.1%**
- **Remaining:** 38 / 174 → **21.9%**

The Structural module accounts for the largest share of work and has shown strong progress, with 99 tasks completed. Remaining efforts are concentrated in final bug fixes and support tasks.
